

IRCC-AFP Meeting 2022

更新日：2022年10月18日更新

The first meeting of the International Research Collaboration Center for Astro-fusion plasma Physics (IRCC-AFP) will be held at the National Astronomical Observatory of Japan (NAOJ) on the Mitaka campus (Tokyo) on October 24th-28th. The meeting will define the future of the IRCC-AFP with a focus on reconnection and shock waves in various aspects of both astrophysical and fusion plasmas with the intent to build new international research partnerships. The first two days, from Oct. 24th to 25th, will be dedicated to presentations, followed by a workshop from Oct. 26th to 28th.
